

Broker's Quick Guide to DIXON EXPRESS

We have a 14' Isuzu NPR HD reefer box truck (8,500 max load) based out of Dixon, CA that is open for work. Our driver (previous Class A license, currently Class C for this venture) has over 10 years of commercial driving, loading/unloading, and medical supplies delivery experience.

Currently, we have a valid **Intrastate-Only operating authority**, but no MC, meaning we can complete commercial pick-ups & deliveries **only within the state of California**. We are interested in owner/operator box truck opportunities and can provide proof of insurance (\$1M auto, \$100K cargo) and any other documentation upon request. We use ELD through Matrack.

Please don't hesitate to reach out to me directly at camille@cairnway.co for more information or to engage us for work.

Thank you for your interest in our company!
